

EQUIPPED: TOMORROW IS TODAY.

Our HVAC system, parts of which have faithfully served us for the past 70 years, is now in desperate need of replacement. As temperatures rise and fall outside, our aging system struggles to maintain a comfortable and safe environment within our church walls. This not only affects the physical comfort of our congregation but also hinders our ability to fully engage in worship, fellowship, and ministry activities.

After countless hours of investigation and research, the Board of Trustees and staff leadership has set a bold goal of raising \$1 million to install a modern HVAC system. This system will not only provide us with the comfort and safety we need, but also equip us to better fulfill our mission in the years to come. With your help, we can ensure that our church remains a welcoming and accessible space for all who seek refuge and renewal in God's presence.

We understand that this is a significant undertaking, which is why we are inviting you to prayerfully consider making a pledge toward this vital project. Pledge cards are available both at the church and online, and are three year commitment. Your generous contribution, whether large or small, will make a tangible difference in the lives of our congregation and the broader community we serve. Together, we can ensure that tomorrow is indeed today, as we embrace the future with faith, hope, and love.

Thank you for your unwavering commitment to our church and its mission. May God bless you abundantly as we journey together in faith and service. Pray and seek God's leading regarding your unique contribution.

**PLEDGE CARD DEADLINE:
Wednesday, July 24**

(Pledge Card also available as link on website)

**CALLED BUSINESS MEETING:
Sun., July 28 — FMC — 6:00 p.m.
(Vote for HVAC Contract)**
